Rule number/topic	R-2021 07
Comment(s) or question(s)	<p>Comments for the Commissioner:</p> <p>We just found out that our auto insurance premium is going up 29.5% completely due to the fact that we were previously getting a discount for having excellent credit scores.</p> <p>Do you know how long it takes to restore bad credit? It has taken a lot of time and financial sacrifices on our part to get to where we are, and your order takes that away from us now ... without legislative approval.</p> <p>Your only solution given to us is to "find another insurer". Why should we have to search for a "bargain basemnet " insurer?</p> <p>Staying with a high end insurance company that can provide support during claims is just as important to the industry and well being of drivers as the price one pays for premiums. You are encourraging new and low quality insurers to enter and take over this state by encouraging drivers to switch companies.</p>

Please PAUSE this order until more research is done revealing which drivers are the higher risk and should have higher premiums.

Our homeowner insurance has also been effected. We have already "paid the price" to build up our credit scores. Why are we now the ones who have to pay again? Let those new inexperienced drivers learn the value of being trusted ... through time honored experience on the road and their claiming history.

Sincerely,

David and Elsie Burrill
Olympia, WA
