Rule number/topic	CR-102 for R2021 -07 Not using credit scores
Comment(s) or question(s)	<p>It is unfair for those of us who have built up our credit scores over time-out to have it not counted toward lowering our auto and homeowners insurance bills as we reach our senior years.</p> <p>Our social security payments may be increasing this year but the \$100 or so dollars/month will not cover the monthly rise in insurance costs plus the inflationary costs of gasoline, food, and other durable goods.</p> <p>I respectfully urge you to not pass this rule. It is unfair to all Americans who have worked hard to use credit wisely.</p>
