| Rule number/topic | Emergency ruling re: using credit report |
| Comment(s) or question(s) | <p>So as a result of this ruling my homeowners insurance rate has nearly doubled (yeah, I have really good credit). I am a bit confused by this decision and what, exactly, I am being penalized for. Did you see this consequence coming when you enacted this ruling? Did you tell the public to get ready for this and I just missed the memo? I must say there have been other ways in which your rulings have made insurance hard in Washington (try getting health insurance or Medicare Advantage plans in Jefferson County) but this is a ridiculous hardship that only penalizes people with good credit. Nice move!</p> |
