Introduction

In 2006, the Washington state Legislature enacted comprehensive health care liability reform¹, requiring attorneys to report medical malpractice settlement data to the Office of the Insurance Commissioner (OIC). Each year, the OIC must post summary statistics about medical malpractice lawsuits that are resolved.² [RCW 7.70.140](#) does not have tools for the OIC to use to require attorneys to report data. Voluntary compliance has been poor and the data in this summary is incomplete. The OIC cannot draw conclusions from incomplete data, so this statistical summary is limited to calendar-year statistics.

There are two types of data displayed in this statistical summary:

- **Total paid indemnity:** Total compensation paid by all defendants to the claimant stemming from a lawsuit. Indemnity payments may come from several defendants if a lawsuit named more than one party.³
- **Legal expenses:** All sums paid by the claimant to the attorney to prosecute the claim, including attorney fees, expert witness fees, court costs and all other legal expenses.⁴
