Comment(s) or question(s)	<p>Hello,</p> <p>I had a question regarding R2024-1. The Preproposal Statement of Inquiry indicates that the agency is considering updating " the BBPA rules, including but not limited to consideration of arbitrator fees and revisions to the arbitration process for arbitration authorized under RCW 48.49.135." Can you clarify, would these proposed changes be solely related to the dispute resolution process as applied to the alternate access delivery request?</p>
