1 - Neither Medicare nor Medigap insurance pay for most nursing home care (See Medicare & You Handbook, pages 26, 56).

2 - A benefit period starts the first day you receive a Medicare-covered service in a qualified hospital. It ends when you've been out of a hospital (or other facility that provides skilled nursing or rehab services) for 60 days in a row. It also ends if you stay in a facility (other than a hospital) that provides skilled nursing or rehab services, but do not receive any skilled care there for 60 days in a row. If you enter a hospital again after 60 days, a new benefit period starts. This also applies to mental health in-patient stays. (See Medicare & You Handbook, pages 27-29 and 115).

♦ If the hospital gets blood from a blood bank at no charge, you won't pay for replacing it. If the hospital buys blood for you, you must either pay the hospital costs for the first 3 units of blood you get in a calendar year or have the blood donated by you or someone else. (See Medicare & You Handbook, page 26.)

**Premium for Part A:** Most people don't pay a premium, because they (or their spouse) worked for over 40 quarters. If you have fewer than 30 quarters of coverage, you pay \$505/mo. For 30-39 quarters of coverage, you pay \$278/month (Note: These numbers were not available at the time of printing for the 2024 Medicare & You book.) Monthly Part B premium: The standard Part B premium amount in 2024 is \$174.70 (or higher depending on your income). However, a small number of people who get Social Security benefits will pay less due to the "hold harmless" provision. Social Security will tell you the exact amount you'll pay.
