RE: Insurance Commissioner Matter No. R 2015-07

Dear Mr. Tompkins:

Our company would like to express our appreciation for the thoughtful work the Washington OIC has done in refining proposed rule WAC 284-17-825 as it relates to referrals. With the latest revisions we are confident that the rule has been sufficiently amended to remove the possibility of conflicting with Washington statutes. As a result we are pleased to indicate our support for the revised proposed rule that is the subject of the November 24 hearing.

We very much appreciate the Department's willingness to revisit these provisions, and look forward to the clarification that will result when they are promulgated.

Sincerely,

A handwritten signature in cursive script that reads 'Suzanne Loomis'.
